SPECIFICATIONS:

| | | | |
|-----------|--------------------|---------------|---------------------|
| NAME | Ultrasonic Cleaner | POWER SUPPLY | AC 100-120 V, 60 Hz |
| ITEM No. | BJC-1259 | INPUT POWER | 35 W |
| DIM. | 20 x 12.5 x 4 cm | TIMER SETTING | 3 minutes |
| TANK SIZE | 600 ml | WT | 780 g |

The vibrating of washing liquid caused by Ultrasonic wave cleans off dust, smeary bits and dirt on the surface.

Features:
35watts of PURE
ULTRASONIC Power
42,000 cycle energy wave
quiet, solid state circuitry
3 minutes auto shut off

IMPORTANT SAFEGUARDS

READ ALL INSTRUCTIONS BEFORE USING

DANGER—To reduce the risk of electrocution:

1. Always unplug this product immediately after using.
2. Do not use while bathing.
3. Do not place or store product where it can fall or be pulled into a tub or sink.
4. Do not place in or drop into water or other liquid.
5. Do not reach for a product that has fallen into water. Unplug immediately.
6. The product may be off or can't be switched off when it is subjected to electromagnetic interference like Fast Transients or Surge voltage, but it can recover after being re-plugged in the socket, and then just follow the instruction described in this manual to set the function again for normal operation.

WARNING—To reduce the risk of burns, electrocution, fire, or injury to persons.

1. A product should never be left unattended when plugged in.
2. Close supervision is necessary when this product is used by, on, or near children or invalids.
3. Use this product only for its intended use as described in this manual. Do not use attachments not recommended by the manufacturer.
4. never operate this product if it has a damaged cord or plug. If it is not working properly, if it has been dropped or damaged, or dropped into water. Return the product to a service centre for examination and repair.
5. Keep the cord away from heated surfaces.
6. Never use while sleeping or drowsy.
7. Never drop or insert any object into any opening or hose.
8. This appliance is not intended for used by persons (including) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliances by a person responsible for their safety.

OPERATION GUIDANCE

1. Open the upper cover, put the article into the tank, then fill with water. (The water should merge the article but not exceed the ruling mark.)

Running without water can damage the unit!

2. Close the cover. Connect the unit with power. The Power Indication Light (Blue) on the inner cover will be on.
3. Press ON to start cleaning and the Working Indication Light (Red) on the upper cover will be on.

During cleaning, the "ZiZi" noise is normal, which comes from tank working.

4. After 3 minutes, the cleaning automatically stops and the Red light turns off. Or press OFF to stop. For another cleaning cycle, just repeat above process.
5. When cleaning is over, cut off the power. Open the cover, take the cleaned article out and drain the water.

CLEANING METHODS:

Three cleaning methods (in different situations)

General Cleaning

Ruling mark

Use just tap water for general cleaning. (The water should merge the article but not exceed the ruling mark.)

Enhanced Cleaning

For professional use (jewelers, opticians, dental labs, dentists, artists etc.) Use special cleaning liquid. For smears, add a few drops of detergent into water to enhance cleaning.

Partly Cleaning

For large articles, partly cleaning as shown.

USER MAINTENANCE

1. Do not leave the cleaned item in the cleaning. Container when pouring

2. Before draining the water, unplug the unit.

3. Do not leave water stay in the cleaning container. Empty immediately after each use.

4. Wipe the tank with towel.

Prohibit washing the complete unit with water to reduce the risk of electrocution.

5. Keep cool and dry.

6. Any repair should be performed by authorized service centers in our Guarantee Book.
